

THREE MEN IN A BOAT

I have recently read an interesting book. For that reason, I am going to write a short summary of it.

Three boys of a common school planned a trip due after their exams consisting of renting a boat and sailing through a river. Once they had passed the exams, they began to pack and prepare the equipment.

When they started the adventure, they saw a sinister boat with a strange occupant; John was worried about this until his friends saw a boat with three girls.

One night, they met with the girls at a café, near the river. Outside, John listened the strange man who was talking with someone on the phone. All that he said was suspicious and John agreed with Guy and Freddy about this. Therefore, he told it to the girls. They decided to spy Grim Jim, and they discovered that he planned a theft. The teens devised a plan to catch Grim Jim. Finally, the police arrived and the boys were rewarded. They enjoyed a perfect day with the girls aboard the awesome boat of the owner of the house in which the thief wanted to break into.

This book is what I expected, a simple and common story. I really want to find a book which can surprise me but this one isn't so bad. It narrates a story of friendship and adventure during a summer trip. Even so, the book has fascinated me at some moments and I recommend it because it is a good entertainment; but I expect that it doesn't fail the expectations of anyone.
